

Parish infrastructure

Supporting Parish and Town Councils to develop Parish Infrastructure Investment Plans for the spending of Community Infrastructure Levy, Section 106 and other funds.

Contact our highly experienced team to discuss how we can work with you to develop a Parish Infrastructure Investment Plan.

A Parish Infrastructure Investment Plan will:

- Engage the community in decision making
- Identify infrastructure needs
- Provide evidence for spending decisions
- Provide evidence for other funding bids
- Identify sources of funding and opportunities for matching funding streams to make the most efficient use of income
- Prioritise expenditure of funds based on local needs and the aspirations of your community
